INCOMING FRESHMEN CAN EARN UP TO **0.5 ELECTIVE CREDITS** THROUGH PARTICIPATION IN ONE OF THE SUMMER SCHOOL PROGRAMS OFFERED.

SUMMER SUCCESS ALL CAMPUSES

Students attend English and Math classes that reinforce foundational content skills, introduce the Advisory Program, establish effective study skills and discuss setting post secondary readiness and learning goals, as well as introducing students to high school.

INTRODUCTION TO COMPUTER SCIENCE ALL CAMPUSES

Every 21st century student should have the opportunity to learn computer science. The basics of computer science help nurture creativity, critical thinking, and problem-solving skills, preparing students for a future in any field or career. Software jobs, and related skills, are increasingly in demand and allow for tremendous workplace flexibility. The purpose of high school education is college and career readiness. This class is a pathway for students to be prepared for both.
