

AFUHSD ATHLETICS UPDATE

The AIA has now added Opioid Education as a course for students to take. The AFUHSD Athletics Department has made this a mandatory requirement for the 2020-2021 school year.

With the addition of the Opioid Course, the AIA has transitioned the AIA Academy website to <https://academy.azpreps365.com>. Previously www.aiaacademy.org, (it will redirect you to the new site).

The Athletic Department will be adding the required upload to all Register My Athlete accounts. By doing this all current athletes that are "Ready for Tryouts/Complete" will be marked incomplete.

This course is completed in the same manner as the Brainbook Academy Concussion course. Each student will need to complete the Opioid course and upload the certificate of completion to their Register My Athlete profile for approval in order to be eligible and marked "Ready for Tryouts" on their account.

FAQ's

Q: What if I forgot my password?

A: You can request a new password from AIA with your email address.

Q: What if I forgot what email address I used to complete the Brainbook course?

A: You can use a new email address to complete the Opioid course, however, AIA will not email you a copy of the certificate. You will need to save it once you're complete to be able to upload.

Q: My Opioid Certificate is on the same certificate as the Brainbook Certificate. Which one do I upload?

A: You can upload the same certificate to both, Opioid and Brainbook so that each requirement will be fulfilled.
